

EssilorLuxottica x Armstrong ACT National Account

EssilorLuxottica has set up a National Account with Armstrong to uniform our ACT specifications across our stores. Procedure outlined below on how to order from Armstrong accessing the National Account commercial conditions.

National Account Pricing Access – [Video Tutorial](#)

Purchasing Site: Customers should go to accounts.armstrongceilings.com to purchase.

New Customers: All new customers need to go to accounts.armstrongceilings.com/pages/register to register. When registering they will need to include the account name within the notes section.

Sign in: Once the account is approved (within 24 hours from submission), the account will be alerted by email they have been approved to log in. When logging in, they will need to enter their email to receive a 6-digit code to enter. This code is necessary in the log in process. Once logged in, the items will be visible with the discounted price.

Product layout: Unfortunately, there are limitations on how the site can currently configure items. The development team has it on their roadmap to make it more customizable for customers in the future. Currently, if there are questions, please email me directly at lycavataio@armstrongceilings.com and engage Agnes Weiss to assist.
